Mind & Breath

THEY ARE PRETTY ESSENTIAL

Well, you knew that anyway.
But you may not be aware that
there is only
ONE PERCENT DIFFERENCE
in DNA composition between us and
our closest mammal relatives
on planet Earth
MUCH OF THAT DIFFERENCE
is

OUR MIND

And what we do with it.
We can use it to enrich our life or
we can use it just to get ourselves through.
Our mind is what makes us who we are,
It makes us choose to either live in peace and
harmony or fight wars and kill each other.
It is up to us – Our Choice
So let's harness it's amazing strengths to
ENRICH OUR OWN LIFE RIGHT NOW
(That's a great place to start)

ANOTHER THING WE CAN IMPROVE
is

OUR BREATH

And how we handle it.
We often find that we are simply
gulping in air in the gaps between what
we are doing at the time.
A big part of Yoga is learning to breathe in a
way that enhances our practice, our postures
and our relaxation techniques.
The logical extension of that is to use those
benefits all the time, throughout our daily life.

**THIS COURSE WILL TEACH US HOW
TO ENHANCE BOTH OF THESE
RIGHT NOW**

**This course draws together the two most powerful aspects of our self.
Using them will change your life, for the better, forever.
Just eight weeks which can lead you to happiness freedom and peace.**

Ask yourself:

*'Are you having a good day, enjoying the here and now,
appreciating all that you have?'*

OR

'Are you stressed, anxious and worrying about the future?'

If you want to feel better, reduce anxiety and learn how to handle anger, grief, stress or pain this eight-week course could be exactly what will help you. It will give you the tools, tactics, strategies and even a 'master plan' to do just that. It will be eight weeks with discussion, handouts to take home, practise and on-going support. We will use mindfulness techniques, yoga breathing practises, meditation and relaxation.

At the close of the last evening, we will join together in a celebration meal with the Limekiln Cafe's famous Buddha Bowls on our menu. A delightfully social way to finish this series of life-enriching sessions.

It is easy to become involved...

Take eight short spots on Wednesday evenings,
just two hours in a group of lovely people.

By sharing this time, you will feel the difference week by week
(and so will the people around you).

We can't change life itself, but we can change our own self and the way we look at things. We can develop the power within us to see the world as a place of beauty, make positive interaction with others and develop kindness and love.

No previous previous experience in these areas is necessary, and you can also come along if you are already meditating,
it will only enhance your experience.

Age does not matter, the right time to be involved is now.

Because it is natural that we perhaps fade from our commitment over time, after the course finishes there will be after care and on-going support,
This is a true investment in your self and your life
